### Product Description

The V-Sphere™ is an eye-catching, innovative spherical sliding puzzle that will challenge, delight and amaze boys and girls of all ages! The sphere is addictive once scrambled, and no one can let go until it's solved! It's a lightweight but sturdy puzzle with lasting bright colours and very smooth operation. V-Sphere™ consists of 8 fixed coloured spherical triangles. The 7 triangles are surrounded by 12 coloured, movable rectangular pieces, while the last triangle is surrounded by 11 pieces, always leaving an empty space. This space helps the user to match the rectangular pieces to the fixed triangles of the same colour while moving the movable pieces on the sphere. The ingenious puzzle concept combined with the highest European manufacturing quality creates the ultimate in user satisfaction. Scramble, Slide, Solve!
