

Item no.: 388938

## Space pyramid stack

from **16,79 EUR**

Item no.: 388938  
shipping weight: 0.60 kg  
Manufacturer: Scratch

### Product Description

You can stack this colourful, educational stacking tower with 5 different sized cubes on top of each other to form a tower and place them next to each other as a puzzle. Try to put the hidden puzzle together by placing the blocks with the correct sides next to each other. The 5 sides are decorated with spaceships, aliens, animals and numbers to teach children to stack, puzzle, count and recognise things. The largest stacking block is shaped like a playhouse for the included wooden figures.
