Stack pyramid with wooden animals

from **16,79 EUR**

Item no.: 388926
shipping weight: 0.80 kg
Manufacturer: Scratch

Product Description

This fun, colourful stacking tower consists of 5 cubes with different dimensions that you can use to create a vertical tower or a horizontal puzzle on the floor. The blocks can be stacked on top of each other or next to each other. Try to assemble the hidden puzzle by arranging the blocks with the right side next to each other. The 5 sides are decorated with animals and figures to teach children how to stack, puzzle, count and recognise animals. The largest stacking block is cut out as a playhouse for the animals that come with the puzzle. The stacking tower is made of sturdy, durable cardboard, while the animal figures are made of wood.
