KUTNÁ HORA: THE CITY OF SILVER INSERT

14,03 EUR

Item no.: 386239
shipping weight: 0.10 kg
Manufacturer: Folded Space

Product Description

Note: This product is designed for a box size of 29.6 x 29.6 x 7.1 cm. Official full colour insert, compatible with Kutna Hora®. The design offers both efficient storage and improved gameplay. Many of the trays can be used during the game, significantly reducing set-up and clearing times. The rules and boards serve as lids on the trays. The insert is arranged in up to two layers, with the two card stands positioned above a filler tray at the top of the box. Note the long tray for building and mine tokens, which can be placed right next to the game board during play for easy access. There is room for all the cards, which can be encased in high-quality sleeves. Each player receives their own player tray, which is colour-coordinated with the different families. The two coin trays also go well with the official metal coin set from CGE. Each tray contains images from the rulebook or game cards and boards. The pictures greatly enhance the look of the trays, but also help with tidying up the game as you can immediately see what belongs where. When packing the box, place the rulebook on the trays first, followed by the player boards and replacement tokens as shown. Next, add the main game board sections with the turn track and the scraper board on top of the card stands. Finally, add the remaining boards and reference sheets. This completely fills the box without having to lift the lid and allows the game to be stored vertically. FS-KUTNA is an officially licensed insert product produced in cooperation with Czech Games Edition®. All trademarks and copyrights remain the property of their respective owners, who are in no way associated or affiliated with Folded Space EOOD. This product consists of a flat pack of 4 Evacore trays. The trays need to be assembled with ordinary PVA glue, which is quick and fun. Detailed instructions are included in the pack.
