Magnetic game Tangram animals

from **9,11 EUR**

Item no.: 389051
shipping weight: 0.60 kg
Manufacturer: Scratch

Product Description

Recreate the tangram animals by combining the magnets in the right shape and colour. Try to recreate the 12 different animals on the challenge cards with the magnets on the right-hand side of the book. The animals are always constructed as a tangram. Combine the right shapes in the right colours. Use your own imagination to create many other creatures! The challenges are divided into 3 different levels of difficulty. The activity booklet shows the animals with all the outlines of the shapes (easy); a separate sheet is included that shows the colours of the animals without the outlines of the shapes (intermediate); and on the reverse side the animals are shown in one colour (difficult). This compact educational magnetic game is an ideal companion for car journeys, in restaurants, on holiday or simply for playing at home.
