Pyramide mit Auto und Helikopter

from **16,79 EUR**

Item no.: 389072
shipping weight: 1.50 kg
Manufacturer: Scratch

Product Description

A brightly coloured tower of blocks with five cubes of different sizes. The blocks can be stacked on top of each other, and they can also be placed next to each other to make a puzzle. Try to piece the hidden puzzle together by fitting the blocks with the right face next to each other. Pictures of animals, people and numbers can be found on the five faces. Fun, but also educational! The largest block is a garage with parking space for the fire truck and ambulance that come with the set, and you'll find a helicopter landing pad at the very top of the tower. Stacking, making puzzles, counting, recognising animals and people and so much more! The tower is made of sturdy, durable cardboard, while the vehicles are made of wood.
