Game: Fancy a day full of fun? How about a ball throwing competition? Try to knock over all the monkeys on the five goals. Play the game indoors or go outside for even more fun! You can play this challenging ball throwing game with your family or friends. A great way to develop theDescriptiongame: Fancy a day of fun? How about a ball throwing competition? Try to throw all the monkeys at the five goals. Play the game quietly indoors or go outside for even more fun! You can play this challenging ball throwing game with your family or friends. It's a great way to develop fine motor skills and concentration while having lots of fun. This entertaining game consists of 6 goals and 2 soft balls. The game can be played in different ways. For example: Variant 1: Try to knock over as many goals as possible. Each player has 2 attempts. Whoever has the most points after a round receives 1 point. The first player to reach 5 points wins the game! Variant 2: Each player has 2 attempts. Each time you knock over a goal, you count your points. The goal that is knocked over remains on the ground. Play continues until all the goals have been knocked over. The player with the most points is the winner. Tip: You can make the game more difficult by placing the goals further apart or closer together, by placing some of the goals higher up and by varying the distance. The further away you stand from the goals, the more difficult it becomes. You can also come up with new rules.
