from **6,13 EUR**

Item no.: 402325  
 shipping weight: 0.10 kg  
 Manufacturer: SPIEL DAS!

### Product Description

The first expansion to our hugely successful NINJA ACADEMY! "Detention" offers you 8 new challenges - the best part: the ideas come from enthusiastic ninja fans! New group and duel tasks await! Daredevil climbing, wobbly stacking and building, catapulting and flying - even more varied and challenging this time! Take on the new tasks, improve your ninja skills and have lots of fun with your friends. NINJA ACADEMY: The game world Welcome to the final exam at the Ninja Academy! As a young ninja apprentice, the time has come for you to prove yourself in a competition against the other students. Be quick and skilful to get the best marks and earn your ninja title. Will you be able to defeat your opponents and become a ninjutsu master? NINJA ACADEMY: The game idea 24 challenges await you, in which you have to cleverly prevail against your family and friends! You can compete with all of them at the same time or with individual players in a merciless contest. To successfully complete your ninja training, you will need to demonstrate your skills in sneaking, perception and acrobatics and utilise your psychological acumen. This means: you have to solve dexterity tasks, prove your speed, bluff well, guess and bet on which ninja will win! This is the game material Many challenges await you, which only the greatest ninjas can pass. Successfully complete all the trials or bet on the best ninja to score lots of points. Group challenge All players take part in this challenge. The aim here is, for example, to be the first to blow a card on the back, to collect more ninja figures from a pile than anyone else or to knock over opposing figures. Duel challenge Only two players take part in this challenge. For example, stacks of ninja figures and beams must be built or figures must be thrown into the target. Everyone else is a spectator. If they guess the correct duel winner, they also receive victory points. Ninja figures Ninja figures are available in 2 colours: black and white. They are the stars of almost every challenge. Depending on the task, you will need one of the colours or both. Beams You only need the wooden beams in some challenges. Here you have to prove yourself as a skilful builder in predetermined tasks. Tatami cards The back of each Tatami card shows a tatami, i.e. a rice straw mat, while the front shows a ninja with a number from 1 to 5. The card determines who plays first in a challenge. And you also need it for some tasks.
