### Product Description

With this creative set and its watercolour inks, you can colour in these four beautiful butterflies and the flowers they fly over without painting over the outlines. Let your imagination run wild and bring these beautiful butterflies and the flowers that surround them to life with your brush and inks! With a few drops of paint, all children can create true masterpieces! Aquarellum Junior is a painting technique that makes it easy for all ages to create beautiful works of art. Here is the recipe for success: - High-quality, thick parchment paper that is perfect for watercolour painting as the paper does not crease. - Illustrations with masked outlines that appear as if by magic with every brushstroke. They prevent the paint from sticking to the masked areas, so that children can finally only paint within the lines! - Watercolour paints that blend perfectly and can be layered to create beautiful colour gradients. - A detailed guide on how to perceive and mix the colours. - A "Made in France" concept. This is the perfect craft activity to introduce young children to the art of painting and mixing colours while awakening their sense of concentration. The result is guaranteed to inspire artists of all levels and ages in their creative process. Refill packs are available. An eco-friendly product. This range is made in France and is designed to be eco-friendly so that all ages can have fun while respecting the environment and future generations. Here are the eco-friendly measures taken in the development of this range: - Paint pots made from 70% recycled PET - Non-toxic water-based paints - A pallet made from 70% recycled material - A cardboard box made from at least 80% recycled material FSC-certified - FSC-certified boards - 98% of the value of this product is made in France
