Product Description

Aquarellum becomes 3D! This collector's set contains 7 beautiful illustrations that can be painted with water-based colours before being transformed into 3D animations with an app! The magical Aquarellum painting technique is now combined with a unique digital experience! After colouring in the different illustrations in this collector's set, children are invited to interact with their creations. How to paint with Aquarellum? Aquarellum is a painting technique made in France, suitable for artists of all ages to discover the joy of painting with colours. It's so easy! - The outlines of the illustrations are masked, so you can't paint over the lines. The result is therefore guaranteed, regardless of your artistic level. - The water-based inks have bright colours that blend perfectly to create an infinite number of shades and beautiful colour gradients. - The app also offers tutorials to easily learn how to paint with inks, how to create colours and how to fully enjoy the magic of the Aquarellum technique. How to use the "Aquarellum 3D" app? Once you have painted the 7 beautiful images from this collector's set, you can scan them with the "Aquarellum 3D" app to bring them to life! This app is compatible with Android 7.0 Nougat API level 24 and above; IOS 11.0 and above. You can download the app for free. Thanks to the app, you can enhance the colours, admire your 3D animated creations and project them into augmented reality to take fun photos; so this digital twist adds even more creativity to this artistic activity. Each of your creations will be saved in your personalised and animated gallery! An eco-friendly product This range is made in France and is designed to be eco-friendly so that all ages can have fun while respecting the environment and future generations. Here are the eco-friendly measures implemented in the development of this range: - Paint pots made from 70% recycled PET - Non-toxic water-based paints - A pallet made from 70% recycled material - A cardboard box made from at least 80% recycled material FSC-certified - FSC-certified boards - 98% of the value of this product is made in France
