3908805 - Sand pictures of endangered animals

from **10,05 EUR**

Item no.: 388760
 shipping weight: 0.50 kg
 Manufacturer: SentoSphère

Product Description

From the age of 4, children can create beautiful sand pictures of endangered animals with this fun craft kit! With this set and the accompanying sand pots, you can add colour and texture to a panda, a tiger, a koala and an Asian duck. These animals are as beautiful as they are endangered. Sablimage is a fun craft assortment specially designed for your children to create sand art easily and freely without making a mess. Each set includes:- 4 high quality, thick and pre-cut adhesive sheets with a protective layer that allows children, even younger ones, to easily peel off each section of the illustration.- Illustrations with printed outlines so that children can easily recognise the illustration and the different sections to peel off.- More than 15 pots of coloured sand to give children a wide choice of colours and enough sand to work on all the panels included in the set.- An activity made in France. Simply remove the pre-cut protective surface and sprinkle on the different colours of sand. With each colour added, each illustration comes to life and becomes a true masterpiece. A fun, perfect and guaranteed result for artists of all ages! An eco-friendly product The Sablimage range is going green thanks to a new concept of responsible packaging! We are committed to a greener economy. Every day, we think about new solutions to improve our products and manufacturing processes. We are already proud of our French production and the choice of responsible raw materials (recycled and recyclable cardboard and plastics, compact products), but we can go further! That's why we created the Concept'box! It is a new concept of packaging "0 waste" :- The box is transformed into a frame to sublimate one of the child's creations, the packaging is therefore an integral part of the activity and does not need to be recycled!- The packaging is glued to guarantee the integrity of the contents while allowing the plastic film to be removed!- Like all our boxes, this box uses 100% recycled cardboard with Imprim'vert certified printing!
