Product Description

A fascinating creative activity that helps children discover sand art by adding texture and colour to illustrations of gorgeous unicorns. Who doesn't love unicorns? With this set you can add colour and texture to these beautiful, mystical creatures! SablImage is a fun craft assortment specially designed to help your children create sand art easily and freely without making a mess. Each set includes:- 4 high quality, thick and pre-cut adhesive sheets with a protective layer that allows children, even the younger ones, to easily peel off each section of the illustration.- Illustrations with printed outlines so that children can easily recognise the illustration and the different sections to peel off.- More than 15 pots of coloured sand to give children a wide choice of colours and enough sand to complete all the panels included in the set.- A French-made activity. Simply remove the pre-cut protective surface and sprinkle the different colours of sand over it. With each colour added, each illustration comes to life and becomes a true masterpiece. A fun, perfect and guaranteed result for artists of all ages! An eco-friendly product The SablImage range is going green thanks to a new concept of responsible packaging! We are committed to a greener economy. Every day, we think about new solutions to improve our products and manufacturing processes. We are already proud of our French production and the choice of responsible raw materials (recycled and recyclable cardboard and plastics, compact products), but we can go further! That's why we created the Concept'box! It is a new concept of packaging "0 waste" :- The box is transformed into a frame to sublimate one of the child's creations, the packaging is therefore an integral part of the activity and does not need to be recycled!- The packaging is glued to guarantee the integrity of the contents while allowing the plastic film to be removed!- Like all our boxes, this box uses 100% recycled cardboard with Imprim'vert certified printing!
