Product Description

A cheerfully coloured stacking tower with 10 cubes in different sizes. The cubes can be stacked on top of each other, but also laid next to one another as a puzzle. Try and complete the hidden puzzle by putting the squares with the correct sides together. Five of the six sides have animals, figures and numbers on them. Fun, but also educational. Stack, puzzle, count, recognise animals and figures, and much more. Made of sturdy and durable cardboard.
