### Product Description

Can you complete the picture with knights, dragons and castles by adding the missing figures? Please note: the figures inside the box must always be placed together in the correct way! There are 18 different task cards. Take a task card and attach it with the magnet to the top of the Edulogic Box. Copy the task card with the correct figures at the bottom. Use the magnetic tiles for this. Now try to fill in the empty spaces on the task card by finding the correct missing figures. Look at the series in the middle of the Edulogic box. Who or what belongs together? For example, the knight must always be placed to the left of the dragon (or the dragon to the right of the knight), the blue knight must be placed to the left of the blue horse (or the blue horse to the right of the blue knight) and the castle gate must be placed to the left of the castle or under the castle. Have you been able to complete the picture? Turn over the task card and check on the solutions card whether you have completed the task correctly. This game stimulates logical thinking.
