Product Description

Most children are fascinated by Vikings, and we understand why! Vikings are known for being tough and strong, and our Viking is no exception. Our Viking is as strong as an ox and wears a helmet with pointed horns and a mighty shield. Vikings are best known as Norse seafarers who travelled through northern Europe, plundering one town after another. Build our Viking and invent your own exciting stories. In this tube you will find a variety of colourful plus-plus parts with which you can build a strong Viking who can travel wherever you want. Our Viking looks quite classic, but if you have more Plus-Plus parts, you can build a whole army of Vikings in the colours of your choice. You can find all the colours here. This Viking is part of our Sightseeing series, a range of products that symbolise Denmark and the Nordic countries. In this series you will also find the little mermaid, our Viking ship and our guard. Plus-Plus can be used again and again. When you have finished building your Viking, you can easily take it apart and make new creations. This makes it a fantastic gift idea for children who love to play and be creative. Playing with Plus-Plus encourages creativity and strengthens patience. So playing with Plus-Plus is not only fun, but also educational. - Choking hazard, small parts - Not suitable for children under 3 years- Plus-Plus is easy to clean and can be washed in the washing machine or dishwasher- Free from endocrine disruptors
