### Product Description

Note: Insert designed for game with external box dimensions of 22.7 x 31.7 x 7.3 cm. folded space insert organizer bonfire trees & creatures Insert compatible with Bonfire®, and the Trees & Creatures® expansion. The design provides both efficient storage and improved game play. Many of the trays can be utilised during the game, and they greatly aid set-up and clear-away times. The rules and boards act as a lid on top of the trays. The trays are arranged in up to two layers. Each player receives their own player tray and all the resources are split by type. The action tiles tray has one smaller slot for the yellow tiles and three other slots, each for a pair of the remaining actions. The card trays are all sized to fit sleeved cards. The large tree tiles from the expansion do not have a dedicated tray. Instead they are placed in three stacks in the bottom of the box, using the long filler tray. With the player trays above them everything is held in place when the box is fully loaded. When packing the box, first place the main game board on top of the trays. Next place the player boards, starting tiles for guardians, and creature tiles as shown. Then add the action overview and tree board as shown. Lastly place the rule books on top. This fully fills the box without any lid lift and allows for vertical storage of the game. FS-BFIRE is a third party, unofficial game accessory. All trademarks and copyrights remain the property of their respective owners, which are in no way associated or affiliated with Folded Space EOOD. This product consists of a flat-pack of 4 Evacore sheets. The trays require assembly, which is quick and fun, using ordinary PVA glue. Detailed instructions are included in the package.
