shipping weight: 0.40 kg
Manufacturer: Folded Space

Product Description

Note: Insert designed for game with external box dimensions of 22.7 x 31.9 x 7.9 cm. Insert compatible with Boonlake®. The design provides both efficient storage and improved game play. Many of the trays can be utilised during the game, and they greatly aid set-up and clear-away times. The trays are arranged in up to two layers, with each player receiving their own player pieces tray. All component types are split by type organising all the game components. The building tiles tray has a gap in the base so that the tiles can fit vertically without causing lid lift. The insert includes one large tray for the project cards as well as the scoring tiles and the six large 20 value coins. The tray has space so that all the cards can be sleeved with quality sleeves. When packing the box, first place the action board on top of the large card tray. Note that the action strips are stored on the action board. Next place the game board and then the player boards on top of the trays. Lastly place the rule book on top of everything. This fully fills the box and allows for vertical storage of the game. FS-BLAKE is a third party, unofficial game accessory. All trademarks and copyrights remain the property of their respective owners, which are in no way associated or affiliated with Folded Space EOOD. This product consists of a flat-pack of 3 Evacore sheets. The trays require assembly, which is quick and fun, using ordinary PVA glue. Detailed instructions are included in the package.
