Memory dinosaurs

from **11,74 EUR**

Item no.: 404105
shipping weight: 0.20 kg
Manufacturer: Ravensburger AG

Product Description

With Ravensburger Dinosaur memory®, players set off in search of two identical picture cards. They take it in turns to turn over two cards and discover a wide variety of dinosaur species: Tyrannosaurus, Triceratops, Brachiosaurus and many more! If the players memorise where the identical dinosaur cards are, they can collect many pairs of pictures, discover fascinating dinosaurs and win the game. Dinosaur memory® from Ravensburger brings the fascinating prehistoric animals back to life. Dinosaur fans of all ages will find beautifully drawn pictures of various species of these prehistoric giants on the 64 cards. Whether land, sea or flying dinosaurs, finding a matching pair of pictures requires concentration and a good memory. Two cards are revealed in turn. If these cards show different dinosaur pictures, they are immediately turned over again. However, if the two cards show the same picture, the player receives this pair of cards and may immediately turn over 2 more cards. The player with the most pairs of cards at the end wins.
