Product Description

Word for word, board / learning game (DE), for 1-4 players, ages 6+

In the children's game "word for word" for 1-4 players you have to read, write and spell words. How is "pirate" spelled? Who puts the right word for his picture with the right letters? The cheeky parrot on the turntable shows how many letters you can take. The children can check for themselves whether the word is spelled correctly on the back of the picture.

In this playful way, the children acquire and consolidate their first reading skills with this board game. In addition, the language development and concentration of the 6-9 year olds is promoted. Educational games that are really fun: This is the motto of the educational game series by Ravensburger, with which children are supported in their development in the most learning-intensive years. All games are developed and tested according to the latest scientific and educational standards. The learning materials are packed in exciting stories, a variety of materials and methods allow learning with all senses.

The Ravensburger brand has stood for quality games and fun since 1884. The German company was founded as a publishing house in Ravensburg and has been delighting young and old with a wide range of products from games and puzzles to books and handicraft materials ever since. In addition to having fun, learning is a top priority at Ravensburger: The principle of the founder Otto Maier was "learning by doing" back then and is continued to this day. Ravensburger products playfully support the development of skills for all ages. Well thought-out games, executed with high-quality workmanship: This is what the blue triangle from Ravensburger stands for.
