## Animals in action

from **8,50 EUR**

Item no.: 404674  
 shipping weight: 0.20 kg  
 Manufacturer: Ravensburger AG

### Product Description

Solve a whole puzzle on your own! With the six-piece frame puzzles from my first puzzles, even the youngest children can do it. With their small number of pieces and large puzzle pieces, the three frame puzzles are ideal for small children. Putting the lovingly illustrated motifs together can be quite a challenge at first, but with a little practice it soon becomes a success and is great fun. Sturdy cardboard pieces guarantee the longevity of the toy. First frame puzzles for children aged 2.5 years and over. Children playfully train their spatial thinking, patience and hand-eye coordination while doing puzzles. By the way: For the more experienced little puzzlers, you can increase the difficulty by mixing the pieces of two or three frame puzzles. With the right puzzle for their individual stage of development, toddlers understand their environment in a playful and enjoyable way and grow with the challenges. The age-appropriate puzzles from Ravensburger show pictures from the world in which children live, which inspire the little ones. If your child also likes to explore everything with their mouth, the safety of all the materials used has been confirmed by an independent institute. For more than 100 years, we have been developing puzzles the way children love them: age-appropriate in terms of motif, number of pieces and size. Details- Item number: 05630 - EAN: 4005556056309 Warnings No warnings required.
