Item no.: 404671
shipping weight: 0.20 kg
Manufacturer: Ravensburger AG

Product Description

Who's sitting on the meadow? Which shape fits here? With this frame puzzle, little puzzle beginners learn to match individual pieces to their shape and motif context. However, if the little puzzlers have their way, the best thing about it is that the pieces can be pushed out of the frame through the holes from behind after the puzzle has been completed. This alone is enough to get them puzzling again straight away. Frame puzzle with individual push-fit pieces. Puzzles with the right level of difficulty allow children to grow with the challenge, boost their self-confidence and, above all, are great fun. Children playfully train their perception, logical thinking and hand-eye coordination. In the large selection of Ravensburger children's puzzles with the most popular motifs, from 2 pieces to 300 pieces, there is guaranteed to be the right puzzle for every child. Sturdy cardboard pieces guarantee the longevity of the toy. The safety of all materials used has been confirmed by an independent institute. For more than 100 years, we have been developing puzzles the way children love them: age-appropriate in terms of motif, number of pieces and size.
