Product Description

Where is the second ball? In the top right corner? Or in the centre? For Junior memory®, things from children's everyday lives were photographed in an appealing way. The aim of the game is to win the most pairs of pictures. To do this, the players have to memorise where the cards with the same picture are. If you uncover a matching pair of cards, you can keep them and then uncover 2 more cards. Whoever has collected the most pairs at the end wins the game. Everything that plays a major role in children's everyday lives has been colourfully photographed for this memory®: A ball, coloured pencils, socks or even a toothbrush. Who can find the most matching pairs of pictures and win the well-known memory and search game? memory® - the world-famous classic game has been delighting children and adults aged 3 - 99 for decades. The ingeniously simple rules make it the perfect family game in which the little ones often win against the grown-ups. Details- Item number: 20880 - EAN: 4005556208807 WarningsNo warnings required.
