Item no.: 404697
shipping weight: 0.30 kg
Manufacturer: Ravensburger AG

Product Description

Lights out, puzzle on! This is possible with the unique Ravensburger Color Star Line puzzles, which light up in several colours. The last puzzle piece has been placed, the joy is great. And the excitement builds, because now comes the highlight of this innovation: hold the puzzle up to the light, darken the room and WOW! It lights up in red, blue and yellow! Additional luminous colours on the surface make the motif glow in multiple colours. With 100 pieces in XXL format, they are suitable for children aged 6 and over. Fixed in place with Ravensburger Glue Sheets, the Colour Star Line light-up puzzles are easy to hang up and guide little puzzlers into the land of dreams night after night. The colourful motifs have been specially developed for the multi-coloured glow effects. The selection of the right motifs and the high quality of our children's puzzles are very important to us. That is why the safety of all materials and the phosphorescent glow-in-the-dark paint has been confirmed by an independent institute. Note: For full luminosity, shine a bright light source on the puzzle for one minute. The maximum luminous effect lasts for a few minutes and then slowly fades, with each of the colours continuing to glow for different lengths of time. Details-Item number: 13357 - EAN: 4005556133574 WarningsNo warnings required.
