Product Description

Age-appropriate puzzle fun in XXL format: A dive into colourful underwater worlds, a journey through time to the land of dinosaurs, a discovery tour to the home of tigers, elephants & co, or a magical adventure in unicorn country - puzzle piece by puzzle piece, children can immerse themselves in fantastic worlds and be amazed! Our jigsaw puzzles are made to an excellent standard using materials from sustainable forestry. Educationally valuable and lots of learning fun. Search for pieces, put them together and enjoy the ever-growing picture - puzzling is when one success follows another. That's why children love to put the puzzle pieces together again and again to create their favourite motifs. But jigsaw puzzles offer more than just fun: chosen with the right level of difficulty, they allow children of all ages to grow with the challenges, increase their patience and strengthen their self-confidence. The large selection of Ravensburger children's puzzles with the most popular motifs, from 2 pieces to 300 pieces, is guaranteed to have the right puzzle for every child. The selection of motifs and the high quality of our children's puzzles are very important to us. That is why the safety of all materials is confirmed by an independent institute. For more than 100 years, we have been developing puzzles the way children love them: age-appropriate in terms of motif, number of pieces and size.
