from **95,68 EUR**

Item no.: 369296
shipping weight: 2.00 kg
Manufacturer: TAMIYA

Product Description

TAMIYA presents a special version of the TT-02 kit "My First Try Model"! The special feature of this model is that important and difficult components are already pre-assembled at the factory. Differentials, shock absorbers, wheels and engine are pre-assembled. This means that the model can be assembled very quickly and the driving fun begins sooner. The model is particularly suitable for beginners who have previously only driven RTR models. With this kit, the beginner gets to know the technology and can perform maintenance work better. Required accessories: 2-channel remote control with receiver, standard size steering servo, 7.2V NiMH battery pack, charger, body and spray paint for polycarbonate (TAMIYA PS-). WARNINGS: Before you start assembling, you should have read and understood all the instructions. If a child is assembling the model, a supervising adult should also have read the assembly instructions. Tools including knives are used when assembling the kit. Special care should be taken to avoid injury. If difficulties arise during assembly, ask an adult to supervise the work or a model builder with RC experience or a specialist dealer. Only use tools for their intended purpose. There is a risk of injury if used incorrectly. If you use paint and/or glue (not included in the kit), observe and follow the instructions supplied with the kit. Keep the kit away from small children. Prevent children from putting any components in their mouths or pulling plastic bags over their heads. Caution! Not suitable for children under 14 years of age.

Details:- Scale: 1:10- Age recommendation: from 14 years Technical details:- Unpainted kit- Partially pre-assembled kit model in 1:10- encapsulated 4WD all-wheel drive- powerful 540 electric motor- independent front and rear suspension- many optional tuning parts available- gearbox, motor pinion, chassis, wheels and shock absorbers are pre-assembled Technical data:- Length 61.0 cm- Width 19.6 cm- Height 32.0 cm- Wheelbase 25.7 cm Contents:- Partially pre-assembled kit model in 1:10- Decoration- TT-02 chassis/tub chassis- 4WD cardan drive- 540 electric motor- Slick tyres with good grip- Independent suspension- Suspension struts- Foam bumper- Instructions
