Product Description

HeXXen 1733: Davy Jones Crate - Adventures in the Caribbean, Hardcover, 128 pages.

The third volume of the Caribbean series contains a complete adventure campaign that sends the hunters criss-crossing the Caribbean. The goal of the spectacular journey is a powerful artefact that is said to rest at the bottom of the deep sea, but has recently been recovered by the equally mysterious and gruesome Andromeduses.

The hunters follow the tracks of a thief who may know more about the artefact and gradually uncover the stages of his adventurous journey. In the process, they make powerful enemies: pirates, Andromeduses and a deadly enforcer in the service of the Contaminator of the Seas are after them. Can the hunters get their hands on the treasure in time before an unimaginable horror from ancient times is conjured up? The volume has 128 pages, hardcover, imitation leather binding. It can only be played with the other Caribbean volumes Hunters of the Caribbean and Secrets of the Caribbean.

Caution. Not suitable for children under 36 months.
