Product Description

Adventures & Academia First Class is a collection of magical college characters for 5e roleplaying games.

Your adventures are sure to graduate with this set of six pre-assembled, highly detailed PVC miniatures, each representing an iconic roleplaying class.

Barnaby, Letha and Rusya are students of promising magical means belonging to House Arcane. The wizards, warlocks and sorcerers of this house seek to prove that magic can overcome any obstacle.

Arthur, Bondus and Vianola are powerful protégés of House Might, home to barbarians, monks, fighters and all those who work to master their inner strength.

House Arcane

House Arcane aims to prove that magic can overcome any obstacle. Here, wizards and sorcerers alike learn that magical powers must be understood and used. Unlocking the secrets of magic is not without its misadventures, and House Arcane is responsible for most of the admissions to the Academy's infirmary.

House Might

Founded by Tizon, a sentient magical sword, House Might is home to all those who seek to master their physical power and become the best fighters they can be. Inner strength, determination and discipline are the main virtues of the house.

Home to fighters, monks and barbarians, House Might teaches its students both the logistics of leadership and the mastery of their chosen weapon - be it blade, fist or mind.

This is the house of self-improvement. It seeks to prove that the mind can master the body and anyone can become the best version of themselves through hard work and dedication.
