Product Description

Designed for our DARK SOULS™ role-playing game, these sets give players the opportunity to enhance their adventures with a range of iconic monsters, characters and bosses from the DARK SOULS™ universe.

These sets feature official representations of characters from the hugely popular DARK SOULS™ video games from BandaiNamco and FromSoftware. The video game series is famous for its punishing but rewarding gameplay and revolutionary level design, and has sold over 27 million copies to date.

There are 6 sets in total, each containing highly detailed minifigures depicting monsters such as the Silver Knights and the Hollow Soldiers, player characters such as the Knight and the Robbed, and even a giant Guardian Dragon boss on a 110mm base.

Players are not limited to using these miniatures with DARK SOULS™ tabletop games, as they are compatible with 5th Edition and can be added to any fantasy roleplaying game. The only limit is your imagination.

These pre-assembled DARK SOULS™ miniatures are ready to use right out of the box and will appeal to collectors and painters as well as roleplayers.

Caution. Not suitable for children under 36 months.
