Product Description

The stalwart Sentinels are almost immovable with their thick plate armour and colossal great shields. In contrast, Hollow Soldiers can barely withstand a strong gust of wind. Their tattered clothing and atrophied muscles offer little ballast.

Bring your next roleplaying session to life - or death - with The Steadfast & The Hollow miniature box designed for DARK SOULS™: The Roleplaying Game.

In this box is everything you need to add the armoured Sentinels and downed Hollow Soldiers to your campaigns, including 4 highly detailed minis and 2 stat cards. All miniatures in this range are 5e-compatible and can be added to any role-playing campaign straight out of the box.

Dare you challenge The Steadfast and the Hollow?
