Product Description

In "Cabanga!" the players try to get rid of all the cards in their hands as quickly as possible by placing them skillfully and without gaps, because they give minus points at the end. This would all be quite simple if it weren't for the other players. If a gap opens up, "Cabanga!" is heard from all sides. - and cards are thrown at you again. Who will manage to collect the fewest minus points in several rounds and win with a final "Cabanga!?" This is how you play Cabanga! MBE3:- Place the 8 starting cards to the right and left of the coloured row cards in the centre of the table. - Deal out 8 number cards each and take them into your hand. - When it's your turn, place a number card on one of the two discard piles of the corresponding colour. - The value of your played number card forms a number gap with the opposite number card. - Now everyone else should pay close attention! If they have a number card of the same colour in their hand that fits into the number gap, they can throw the card to you with a loud "Cabanga!". - For every card thrown to you, you must draw a card from the penalty pile. So try to discard as many cards as possible. - As soon as one person has got rid of all the cards in their hand, a round ends and you write down your minus points. - If someone reaches 18 or more minus points, the game ends. The person with the fewest minus points wins. Caution! Not suitable for children under 36 months.
