Product Description

Developed in collaboration with the hobby community, Speedpaint 2.0 now includes 90 colours, the industry's first single-coat metallic paints, and an advanced formula for speed and performance to meet the needs of painters of all experience levels. Simply apply one coat of Speedpaint directly to a white primed miniature and you're done! Speedpaint instantly creates intense shading, vibrant colours and a light effect in a single application. Speedpaint 2.0 is also a great solution for quick priming! Once your Speedpaint is dry, you can start applying acrylics in minutes, not hours. Thanks to its speed, ease of application and vibrant colours, this versatile paint range will undoubtedly help you spend more time playing.

Caution. Not suitable for children under 36 months.

- One-coat coating solution
- Uniform flow over all colours
