Product Description

The gentle and fertile floodplains of the Great River and the jealously guarded mountain ranges of the dwarves together form the Riverlands, a haven of tradition where cosiness, law and order are upheld. Ancient secrets and mysteries surround this region, and this book summarises them all. Designed for the game master's eyes only, this book contains detailed value boxes for typical regional beasts and monsters according to the rules of the 5th edition of The Black Eye, exciting adventure hooks and explanations of the regional mysteries alluded to in The Riverlands, as well as the fully developed regional adventure Chains for Eternity: Four hundred years ago, one of the fiercest battles of the Mage Wars raged on Lake Angbar: the Battle of Silent Ground. The sinister black mage Zulipan of Punin clashed here with the valiant troops of the dwarven High King Angbarosh. Both commanders died on the bloody field, but not all the horrors of those days could be banished ... and now that the stars are falling from the sky, something is beginning to stir in the tranquil Riverlands. One of those cruel monsters from long-forgotten days is threatening to awaken, but hardly anyone suspects the looming danger. An old dwarven treaty, which has reached the Imperial Chancellery in Elenvina by a circuitous route, brings the secret to light. With its help, only brave heroes can forge chains for eternity in an alliance of humans and dwarves to banish the monster for all time. But to do so, they must embark on an adventurous journey across the Riverlands, fend off brazen river pirates and negotiate with stubborn dwarves. And they are not the only ones trying to unearth the horrors of the past, because even today, power-hungry mages still yearn for the secrets from the time of the Mage Wars
