## Product Description

In Aventuria's swamps you will have a hard time surviving for a long time, no matter whether you are travelling alone or with a group.

In this book, the two winners of the adventure author competition take you to one of the most dangerous regions of our continent. Follow them into the realm of will-o'-the-wisps and bog spirits; alone into the swamps of life or with their companions in a wagon train.

The group adventure is designed for three to five heroes; experience level 13 is required for both adventures. This adventure double volume contains all the information you need on the one hand as a solo player to experience a fantastic adventure, and on the other hand use as a Master of the Black Eye so that your game group can "travel" through a breathtaking story.

Caution. Not suitable for children under 36 months.

- Language: German
- Softcover
- 64 pages
