Product Description

What lies in this bog that many awakened fear? Only the bravest venture into the depths of the swamp, where the monster horde, dullmouths, furry legs and stinky animals lurk. But the daring ones are rewarded with aphma stalks, truffle water or stilt bird feathers. Whoever succeeds in the great coup of leaving the moor beyond the waterfall alive with his prey is a made otter, badger, dog or cat in Donnerbach. But as Olidir Devourer Death said? More awakened ones go into the bog than come out again.

Beyond the Waterfall illuminates a setting teeming with unique, mad creatures and places - be it a Tairach sanctuary of the orcs, a defunct mage academy or the volcanic island in Lake Lamprey.
