US57066 - Pathfinder 2 - The Vault of Secrets Compendium

from **21,60 EUR**

Item no.: 369086
shipping weight: 0.30 kg
Manufacturer: Ulisses Spiele

Product Description

This compendium expands the adventure path The Dread Vault with potential new enemies that the characters can encounter in the depths of the Darklands, as the Xulgaths lurk there and there is the possibility of taking their treasures from them. If that's not enough, you might want to take on their demonic patron saint Zevgavizeb in his abyssal realm of Finsterfraß or learn more about the cults of the Darklands. The Amurruni consider it their divine mission to seek out and combat dangers to the fabric of reality, such as those brewing under the Karglight near Otari. Plus: Gigantic Kaijus are sure to test even the most powerful monster hunters! New talents and treasures! And more!
