### Product Description

Equip yourself and strike! When swords and spells aren't enough to win, it's time to get new trump cards and toys. Mechanisms, lightning coils and black powder await you in this volume! Unlock the secrets of clockwork mechanisms with the new Inventor class or shoot holes in your opponents' ranks as a firearms-wielding Marksman! In addition to these new classes, this book contains numerous archetypes, backgrounds, vehicles, siege weapons, gimmicks and the new Automaton lineage. All of this is just waiting to expand your game with options for combat and battles. Revolutionise your campaign with Gears & Tinderboxes.
