from **34,58 EUR**

Item no.: 369116
shipping weight: 0.80 kg
Manufacturer: Ulisses Spiele

Product Description

The Handbook of Parazology for HeXXen 1733 deals with monsters and beasts - and how to fight and capture them. Described are 18 different creatures from fairy tale and legend, from the Gluhschwanz to the Lindwurm, from the Wendigo to the Wolpertinger. In addition, the book contains extensive rules for studying and categorising these creatures. Three new professions are also introduced, the Animal Catcher, Animal Keeper and Prosector - all of which build on the new Parazologist role. In addition to professions and creatures, the book contains a wealth of adventure ideas and inspiration for the HeXXenmeister to stage their own monster hunts. The book has 128 pages, hardcover in imitation leather. Caution! Not suitable for children under 36 months.
