Product Description

This splendid game master's screen is decorated with beautiful Pathfinder illustrations on one side and a number of useful tables and graphics on the other. Comes with the 32-page adventure Falkengrund's Last Hope. The town of Falkengrund is in need of a miracle. A plague has the town of Falkengrund firmly in its grip, and not even the town's priest can stop it. As the coughs of the sick and the screams of the dying echo through the town, the local herbalist discovers a cure. However, she needs brave heroes to help her procure the necessary ingredients. To do so, the adventurers must enter the dangerous Darkmoon Vale, investigate a witch's cursed hut and explore the ruins of an abandoned dwarven monastery. Falkengrund's Last Hope is an adventure designed for Savage Pathfinder. Novice characters explore both wild natural areas and dark vaults here. For this reason, the adventure also takes a closer look at the enchanted forest and the deadly ruins that hide key ingredients for saving the city. Do your heroes have the grit and skill to find the cure in time? Caution! Not suitable for children under 36 months.
