Product Description

In "Pick a Pen: Treasure Chambers", players try to decipher ancient inscriptions as successfully as possible. The coloured pencils rolled determine which colour may be used to colour in which symbol. Everyone tries to complete as many rows and columns as possible to create ingenious chain moves. Whoever has the most points at the end wins. The new "Roll & Write" game with three different levels for long-lasting fun!

How to play Pick a Pen: Treasure chambers:- Decide together which of the three levels you would like to play and hand out the corresponding game sheet. - On your turn, take the 5 pens and roll the dice in the centre of the table. Then take a pencil from the centre of the table first. Then the next person clockwise takes their turn to choose a pen. - Colour in your chosen colour on your sheet the symbol shown on your pen. - Try to achieve bonus goals and score points with colour groups by cleverly colouring in every row and every column. If you colour in symbols with a coloured border in the corresponding colour, you can even make a bonus move! - As soon as one person has coloured in all the symbols, the game ends. Whoever has the most points wins!
