Product Description

In "Pick a Pen: Reefs", players explore a sunken ship and try to recover the most treasures. To do this, they roll the dice for the crayons and cleverly decide which connections and fields to colour in. Starting from the starting points, all players try to reach gold coins and treasure chests. Whoever navigates their pens best wins! The new "Roll & Write" game with three different levels for long-lasting fun! How to play Pick a Pen: Reefs: - Decide together which of the 3 levels you want to play and hand out the corresponding game sheet. - On your turn, take the 5 pens and roll the dice in the centre of the table. Then take a pencil from the centre of the table first. Then the next person clockwise takes their turn to choose a pen. - Enter as many steps in your chosen colour on your sheet as indicated on your pen. Some dice results only allow you to enter even steps, but some also allow you to enter any number of steps. - Try to use clever routes to recover treasures, collect coins and reach bonus goals in order to collect points. - As soon as one person has recovered enough treasures or collected enough coins, the game ends. Whoever has the most points wins! Contents: - 5 coloured pencils - 1 pad - 1 game instruction Dimensions: - 17 x 12.7 x 3.7 cm Author: - Reiner Knizia Graphics: - Marlies Barends Success factors: - Innovative "Roll & Write" game in which pens serve as dice - Part of the new product series by successful author Reiner Knizia - Three different levels ensure long-lasting fun
