Product Description

Product information "DSA5 - Divinarium Liturgia" Powerful deities influence the fate of your heroes. As idols, forces of nature or scourges of injustice, they are inextricably interwoven with Aventurian history. All devotees share the ability to use the work of the gods in favour of mortals. Transforming into a sacred animal and flying towards the heavens, consecrating weapons against dark forces or hiding rare stolen goods as a star in the sky - these are just a few of the miracles made possible with divine karma. The Divinarium Liturgia presents all these and hundreds of other ways of working the gods: All blessings, liturgies and ceremonies of the 5th edition of The Dark Eye have been revised and expanded in this 450+ page, handy B5 format work with an in-game look. Numerous full and half-page colour illustrations by Katharina Niko (known for her illustrations of the Grimorum Cantiones and the Heldenbrevier series) as well as ancient initials and decorative frames give the book an immersive fantasy look. All liturgies and ceremonies now have 5 liturgy expansions, at least 2 of which are new and never before published. After the usual descriptions of blessings, liturgies and ceremonies, the section on gestures and prayers has been added. Here you will find a description of the sacred gesture to be performed and the prayer to be uttered for the respective divine action for each tradition that can learn it. For many liturgies and ceremonies, detailed background information, local variants of gestures and prayers, anecdotes about saints, miracles and more are presented. Notes on holy gestures and prayers in the game, such as tips on role-playing, limits on the spontaneous modification of gestures and prayers and special cases such as vows of silence for Boron devotees can be found in the appendix. The distribution of blessings, liturgies and ceremonies has been revised and expanded. All consecrated traditions that can learn at least 1 blessing, liturgy or ceremony can be found in the appendix as a special skill. For this volume, 2 new liturgies and 2 new ceremonies have been created to give the worshippers of the Three Sisters another highlight with Permaine's Grace, Travia's Waking Geese and Tsa's Mind Game. Marbo's servants are now also able to honour their vulture mother and take on the form of the holy messenger of death. Many of the liturgies and ceremonies in this volume have been revised based on feedback gathered over the years from both the community and our own playthroughs. Far-reaching changes that affect many liturgies simultaneously can be found, for example, in the sacred animal forms. All blessings, liturgies and ceremonies can also be found in the appendix in overview tables sorted by aspect and distribution. The volume is rounded off with values for the summoned creatures and animal forms.
