from **43,24 EUR**

Item no.: 385116
shipping weight: 1.20 kg
Manufacturer: Ulisses Spiele

Product Description

What blessings are available to a Hesinde devotee? How does a servant of Praios exorcise a demon? How do I recognise the ranks of the Rondra Church? How do Achaz relate to their gods? Do the Novadis fear the Nameless One? You'll find the answers to all these questions - and many more - in this volume. The compact rules describe the working of miracles and liturgies, the basics of karmic energy and its use, as well as special cases such as the working of liturgies against magical phenomena and the effects of increased rapture. In addition, there is a comprehensive list of the liturgies known to the Aventurian servants of the gods in a clearly organised order, short rules on vampires and their vulnerabilities, on werewolves and on the dark wonders of the Nameless One. The second focus of the volume is background information on all the major churches and cults of Aventuria, primarily the Twelve Divine Fellowship, but also the so-called demigods, the feared holy beings of the Achaz, the worship of Rastullah by the Novadis and much more. Longer chapters are also dedicated to the belief systems of the forest people, Nivesen or Orcs, i.e. the animistic world view and its mediation by the shamans. Whether you are a player who wants to try out the role of a devotee or a game master who wants to incorporate the secrets of the gods into your adventures, Ways of the Gods is the indispensable reference book for you!
