**Product Description**

Between the Red Sickle and the Sword of Honour, between the Green Plain and the Sea of Pearls, lies the noble republic of the Born. Here the summers are short and the winters long and merciless, while the nobility enforces its divinely ordained rule with a heavy hand. But the land is awakening and striving to rid itself of its human inhabitants. This regional game aid provides you with additional background material on the Bornland, the Overwhale and the way of life of the Norbarden and the goblins in the Festenland, the Mark and Sewerien. You will also find comprehensive descriptions of the large metropolis of Festum, as well as smaller towns and villages in the Winter Watch. You will learn more about the mysterious awakening of the Bornland and the dangerous Green Wall, where unleashed nature rebels against any form of human settlement. You will also find some background knowledge about the history of the Theatre Knights, whose legacy still shapes the land today. Also included are a map of the region (A3) and city maps of Festum, Firunen, Neersand, Norburg, Ouvenmas and Vallusa.
