Product Description

The ultimate keyring for dice players! The small, portable rotating cube is fully functional and meets the strict quality standards of the rest of our V-Cube range. Designed with intelligent precision, this fun accessory spins smoothly, is easy to handle and fun to solve. You can hold the cube in your hand, put it in your pocket and even hold it together with your keys! Similar to the classic V-Cube 3, the Keychain V3 has 4.32 x 10¹⁹ possible permutations, but together with the chain weighs no more than 30 g! The mini cube consists of 26 mini cubes and a solid cross that supports their independent rotation around the base axes. Available in both the classic flat shape and our unique "pillow" shape. Bright, sleek and fun, the V3 keychain is satisfying to look at AND release, making it an amazing accessory for anyone!
