### Product Description

Awaken your creative side with this cosmetic laboratory, perfect to prepare and enjoy a relaxing and fragranced bath. With this cosmetic DIY kit, have fun recreating a spa atmosphere at home with all the necessary ingredients! You can create the following elements: - Bath salts that will give you a soft exfoliation and relax your muscles. - Bath bombs that will soften your skin. - Bath foams that you can use to clean yourself and relax, thanks to its delicate scent. - Shower gels for a perfect hygiene. We recommend you use all your creations in a hot bath as hot fumes are recommended to relax your muscles. - age: 8 years + Safe ingredients & formulas This DIY kit has been tested according to the Toy and Cosmetic regulations under dermatological control. All the ingredients and formulas it presents are non-toxic and are completely safe for children's skin. These simple operations completely safe and fun to do as no heating process is required.
