Product Description

If you like our watercolour paints, this mini case with 12 watercolour paints is made for you! With a few drops of paint, all children can create true masterpieces! Watercolour is a painting technique that allows all ages to create beautiful works of art effortlessly. Here is the recipe for success:- High-quality, thick parchment paper that is perfect for watercolour painting as the paper does not crease.- Illustrations with masked outlines that appear as if by magic with every brushstroke. They prevent the paint from sticking to the masked areas so that the children can only paint within the lines!- Watercolour paints that blend perfectly and can be layered to create beautiful colour gradients.- A concept made in France. This is the perfect craft activity to introduce young children to the art of painting and mixing colours while awakening their sense of concentration. The result is guaranteed to inspire artists of all levels and ages in their creative process.
