### Product Description

A smooth-running W6 role-playing system that emphasises creativity over complexity, offering numerous variations and plenty of scope for play. EZD6 is easy to play and uses six-sided dice for almost everything. The damage is easy to understand: three wounds and you're out. Almost all attacks generate a wound. The ten types of magic, from elementalists to shadow hunter, are flexible but not without their dangers. Money is abstracted into six levels of wealth, from poor to filthy rich. Distances are similarly simplified. In short, the rules never get in the way of heroic fun. The game master prepares the chaos (adventure scenarios, locations, encounters and enemies) for the players to explore and discover. His task is to make things interesting for the other players. The graphics are attractive and stylish and the rules are easy to understand. There are familiar monsters as well as unusual EZD6 monsters. EZD6 is all about adventurous chaos. Simplicity is the key to letting your imagination run wild!
