Product Description

Lamborghini Revuelto model kit 1:24 - Your personal super sports car in miniature format
The dream of owning your own Lamborghini becomes tangible with this high-quality model kit. This kit combines precision with the fascination of the first hybrid Lamborghini as a suitable project for modellers with a passion for technology. Discover the revolutionary technology and striking design of the Revuelto in 105 detailed parts.
Scope of delivery- Highly detailed V12 hybrid engine with moving components- Functional scissor doors and bonnet for an authentic gaming experience- Precisely designed cockpit with true-to-original instrument panel- Aerodynamically designed body parts with characteristic design elements- Detailed assembly instructions for systematic assembly
Special features- True-to-scale realisation in 1:24 (206 x 84 x 48 mm)- Skill level 3 - ideal for advanced modellers aged 10 and over- Unique detailing of the innovative hybrid drive- Authentic colouring and surface textures
With this model kit, you can create your own super sports car step by step. The precisely manufactured individual parts give you a deep insight into the technical features of the Revuelto. From the complex hybrid drive to the aerodynamic bodywork - every detail is authentically reproduced.
Background information
The Revuelto heralds a new era at Lamborghini. It is the first production hybrid from the Italian manufacturer to combine a 6.5-litre naturally aspirated V12 engine with three electric motors. This innovative drive unit generates a system output of 1015 hp and catapults the super sports car from 0 to 100 km/h in 2.5 seconds. The characteristic Y-design of the LED headlights and the striking silhouette perfectly showcase the brand's DNA.
Order now and become part of Lamborghini history!
- Width: 8.4 cm- Length: 20.6 cm- Height: 4.8 cm- Item number: 07723- Recommended age: 10- Scale: 1:24- Individual parts: 105
