Product Description

Lamborghini Countach LP500S model kit: true to detail on a scale of 1:24 Discover the world of high-precision model making with the Lamborghini Countach LP500S model kit. This exquisitely designed 1:24 scale model brings the fascination of the legendary sports car directly into your hands. With a parts count of 22 pieces, a length of 132 mm, a height of 33 mm and a width of 62 mm, this model is a true masterpiece. Designed for experienced modellers, this set offers the opportunity to create a detailed replica of the original Lamborghini Countach LP500S, which made automotive history between 1982 and 1985 with its distinctive twelve-cylinder engine and iconic scissor doors. Scope of delivery:- Multi-part, detailed engine - Movable bonnet - Accurately reproduced body - Comprehensive set of decals - Base paints, glue and brushes The Lamborghini Countach LP500S model kit is ideal for experts (level 4) in model building. It requires in-depth knowledge and skills that only experienced modellers have. Its high level of detail and the need for precise assembly make it a demanding and rewarding challenge. Special features: This model kit is characterised by its extraordinary attention to detail. It not only features a movable bonnet, but also a multi-part, highly detailed engine and an accurately reproduced body that reflects the uniqueness of the Lamborghini Countach LP500S. The decals and colours supplied allow the model to be designed true to the original. Background information: The Lamborghini Countach is a legend in automotive history. Produced from 1974 to 1990, this super sports car impressed with its angular flanks and revolutionary scissor doors. The LP500S, built from 1982 to 1985, is particularly famous for its powerful twelve-cylinder engine and its top speed of 264 km/h. With this model kit, you can recreate and admire a piece of this fascinating history. - Width: 8.3 cm - Length: 17.6 cm - Height: 4.5 cm - Item number: 67730 - Recommended age: 13 - Scale: 1:24 - Individual parts: 124
