Model Set KFK (Kriegsfischkut

from **30,42 EUR**

Item no.: 392050
shipping weight: 0.80 kg
Manufacturer: Revell

Product Description

Precision model of the wartime fishing cutter: A detailed insight into maritime history Discover the fascinating model kit of the wartime fishing cutter (KFK), a remarkable piece of maritime history. This 1:144 scale kit brings the impressive world of wartime fishing cutters, which were converted for military purposes during the Second World War, directly into your hands. With a parts count of 139, this kit offers a challenging but rewarding experience. The dimensions of the finished model are impressive: a length of 168 mm, a height of 46 mm and a width of 40 mm. This model kit is not only a detailed representation of the war fishing cutters, but also a testament to their adaptability and robustness. Scope of delivery:- 139 precisely manufactured parts - Detailed deck and model stand - Basic colours for a realistic design - High-quality glue and fine brush for assembly - Instructions for a structured and clear assembly The model kit is ideal for advanced modellers (skill level 4). This group of hobbyists already has experience in gluing and painting models and is looking for a new challenge that appeals to both their skills and their passion for detailed models. Special features:- Authentic attention to detail: Every component of the war fishing cutter is precisely manufactured to create a realistic and historically accurate model. - Unique design: The model stand allows for an attractive presentation of the finished model. - Complete craft kit: Included paints, glue and brushes allow an immediate start to the building project. Background information: The Kriegsfischkutter, once a simple fishing boat, was converted for military use during the Second World War and played a crucial role in supplying the German navy. These boats were known for their exceptional adaptability and robustness and are a fascinating example of maritime history. With this model kit, you not only get a piece of history, but also the opportunity to explore and appreciate the engineering and design of these remarkable ships. - Width: 4 cm- Length: 16.8 cm- Height: 4.6 cm- Item number: 65242- Age recommendation: 12- Scale: 1:144- Individual parts: 102
